Sir:

RESPONSE

This paper is in response to the Office Action mailed 22 August 2002. The Office Action sets a one (1) month period to respond to a restriction requirement under 35 U.S.C. 121. The Office separates the claims into three inventions with Claims 1 – 7 drawn to an extrusion method (Group I), Claims 8 – 13 drawn to an extrusion die (Group II), and Claims 14 – 24 drawn to a cellular foam (Group III).

Applicants elect to invention of Group III (Claims 14 – 24). They do so without prejudice or abandonment of the inventions of Groups I and II. Applicants intend to file divisional applications that focus on the inventions of Groups I and II and reserve their right to do so.

Applicants thank the Examiner for including a reminder to amend inventorship upon cancellation of non-elected claims. In the above Application, cancellation of the claims of Groups I and II prompts a change of inventorship to remove Jonathan D. Park. Applicants concurrently file a request under 37 C.F.R. 1.48(b) together with the fee required under 37 C.F.R. 1.17(I).

Please contact the undersigned if you have any questions about this paper.

Respectfully submitted,

Dan R. Howard
